Did you check the "All" folder in the vegas audio fx plugins? If you don't have anything there, try deleting all the registries that contain "vegas" or "vegas pro" in the windows registry editor (regedit) and reinstall vegas. The problem could be on windows, I tested ALL versions of vegas pro before i upload to archive and they all worked. If it didn't solve the problem, try formatting the pc.

Subject: No audio sfx
I mean I have checked Vegas pro 17 and no audio sfx, but I bet the rest of the versions you provided also don't have the audio sfx.

Subject: not latest... I think
for example the latest vegas 10 is version 10e build 737 not 470 like yours.

But anyway great collection
